

My SSP Kit Digital Access Guide

Redeeming SSP Kit digital access codes

1. Locate the digital access code inside the cover of the SSP Kit manual.
2. Go to <https://pld-literacy.org/sspkits/#redemption> (ensure you are logged in to your PLD account) or scan the QR code to the right and enter the digital access code into the form.

Redeem your access
SSP Kit digital resources

Enter the code from your SSP Kit or order confirmation to unlock your digital resources.

12 months' digital access

Licence code

XXXX - XXXX - XXXX

What you'll unlock

- ✓ Daily Reviews and weekly teaching materials for screen displays
- ✓ Printable versions of the Kit Manuals, Screening Sheets and User Guide
- ✓ Additional Catch-Up Programs and Challenge Tasks

Redeem access code

Codes can be transferred to another teacher - they'll get whatever's left of the subscription. Lost your code? [Contact PLD](#)

3. Once redeemed, click on 'My Account' and then 'My SSP Kits' to view your kit.

Transferring SSP Kit digital access

1. Locate the digital access code inside the cover of the SSP Kit manual.
2. Go to <https://pld-literacy.org/sspkits/#redemption> (ensure you are logged in to your PLD account) or scan the QR code to the right and enter the access code into the form.
3. Click on 'Transfer to my account'.

Transfer this licence
SSP Kit digital resources

⚠ This licence is already active on another account
Registered to c*.com - activated 30 Jul 2026.

You can transfer this licence to your account. The remaining subscription moves with it - **the current holder loses access straight away** and is notified by email.

CURRENT HOLDER: c.com → YOUR ACCOUNT: c.com

⌚ You'll pick up the remaining months of the current subscription, then it renews at \$49.50 (inc GST) on an annual basis.

Transfer to my account

Cancel

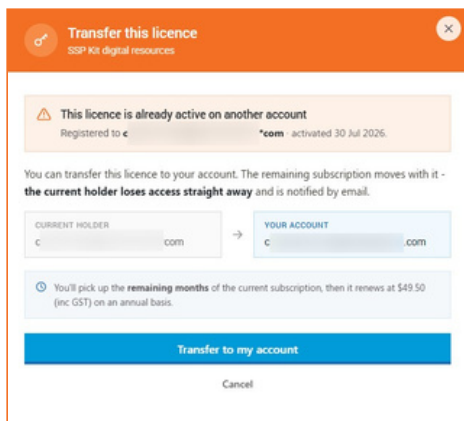

4. Once redeemed, click on 'My Account' and then 'My SSP Kits' to view your kit.

My SSP Kit Digital Access Guide

Providing relief teacher access to SSP Kit digital components

1. The relief teacher needs to register their own account at <https://pld-literacy.org/register/>
2. Locate the digital access code inside the cover of the SSP Kit manual.
3. Go to <https://pld-literacy.org/sspkits/#redemption> (ensure you are logged in to your PLD account) or scan the QR code to the right and enter the access code into the form.
4. Click on 'Transfer to my account'.

5. Once redeemed, click on 'My Account' and then 'My SSP Kits' to view your kit.
To transfer access back to the original (or another) user, simply repeat steps 2-4.

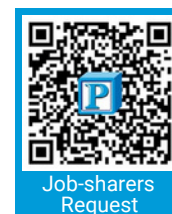

Note: Only 1 person can have access to the kit at any time, so transferring access to a new user will immediately revoke access from the previous user.

SSP Kit access for job-sharing teachers

Where there are 2 teachers job-sharing in the same classroom, an additional access code can be provided (at a nominal cost) to allow both teachers to access the kit by following these steps:

1. Go to <https://pld-literacy.org/ssp-shared-resources> (or scan the QR code to the right) and submit the form.
2. Once the request is verified and the admin charge has been paid, the additional digital access code will be provided via email, which can be redeemed by the additional user as per the instructions above.

Note: Only 1 additional access code can be requested per purchased SSP kit and the additional access code will only provide access until December 31st of the current year. Any requests in subsequent years will need to be resubmitted.

Two-Factor Authentication (2FA)

As part of PLD's commitment to online security, 2FA (two factor authentication) is mandatory for all user accounts. 2FA can be enabled using an authentication app (e.g. Google Authenticator, Authy) or via email as follows:

1. Log in to your account at <https://pld-literacy.org/my-account> (or sign up for a new account if you don't already have your own account - account sharing isn't possible with 2FA).
2. Click on the 'My Account' tab, select 'Edit details' -> 'Two-factor authentication'
3. Click on 'Configure Two-Factor Authentication' and select to enable 2FA using an app (recommended) or email and follow the instructions to complete the process.
4. Once completed, future logins will require entering the code from the authentication app or the code sent to your email to log in to your account on the PLD website.

Scan the QR code to the right to learn more about 2FA & troubleshooting tips.

Visit <https://support.pld-literacy.org> or scan the QR code to the right for further information or to reach out via Live Chat.
